

THE FOOD CHAIN STORY

Directions: Write a story about a food chain that includes animals and plants you might find in Oregon's forests.

<hr/> <hr/> <hr/>	Producers receive energy from the sun.
	
<hr/> <hr/> <hr/>	Primary consumer (herbivore) eats the producer.
	
<hr/> <hr/> <hr/>	Secondary consumer (carnivore) eats the herbivore.
	
<hr/> <hr/> <hr/>	Decomposer helps break down the producers and consumers after they die.

Did You Know?

An Oregon forest is a complex system of interactions among plants and animals. As in all ecosystems, different forest **food chains** interconnect to form a **food web**.
